INSPIRATION FOR INTERIOR DESIGN PROFESSIONALS

## Bold and Beautiful

Cole & Son's geometry lesson embodies the trend for high-impact, patterned wallpapers

### SHOW-STOPPERS

Highlights from 100% Design and Decorex

### BATHROOM FOCUS

Innovative products and inspiring projects

SEPTEMBER 2011 / £5.50

**13 Being Blease**

The Loop mirror can be made from walnut or ash and has a brightly coloured leather strap, designed to hang from a fixed wall peg. The company was launched this year by designer Paul Blease, a manager and buyer at Green and Fay, and is exhibiting at 100% Design through Hidden Art. **16 Original BTC**

Sir Terence Conran has designed an update of the classic Hector lamp, featuring a ribbed shade inspired by Michelin's inflatable icon, Monsieur Bibendum. The slip-cast moulded shade and base are dipped in glaze after biscuit firing, giving the Hector Bibendum a slick gloss finish. [www.originalbtc.com](http://www.originalbtc.com)

14

**14 Preciosa**

The company, which specialises in the production of cut crystal for gifts, jewellery and lighting, will launch a collection of lighting inspired by the forms and colours found in the ocean. The Anemone ceiling fitting resembles an abstract grouping of sea creatures, shimmering with refracted and reflected coloured light. [www.preciosa.com](http://www.preciosa.com)

**15 Tabisso**

This fun collection of alphabet seating and a set of floor lamps in the form of more than 20 punctuation marks make it possible to create customised combinations for commercial or domestic use. The chairs, with a wooden shell and metal base available in various finishes, can be upholstered in fabric or leather. [www.tabisso.com](http://www.tabisso.com)

**17 Baines & Fricker**

The rocking chair by Baines & Fricker is made from Welsh elm and upholstered in Harris tweed. It is part of the company's first own-label collection of modern furniture and is produced in its Brighton workshop using traditional carpentry techniques. **19 Endesigns**

Made from hand-cut and polished K9 crystal on an American black walnut base, Aurum is a sculptural lighting system that glows and refracts light when illuminated. The bricks are cut to resemble gold bars and can be configured in different ways. As well as the 25kg version, there are also 250kg and 1 tonne versions available. **18 Method Furniture**

The Equilibrium coffee table is hand made in Scotland and features a cantilevered surface, which can be specified in walnut, ash or oak, combined with a powder-coated steel support available in various colours. The exposed rivets that brace the leg and surface display a clear architectural influence. [www.methodfurniture.co.uk](http://www.methodfurniture.co.uk)
